ALMA MATER

Berwick High School Alma Mater
Loving mother of our youth
Ever tender, ever watchful,
Teaching honor, duty, truth.
Loyal voices swell the chorus
Alma Mater, B.H.S.

Berwick High School, Alma Mater
Tho' for years from thee we part
Yet the memory of thy guidance
Will be cherished in each heart
Pennsylvania's noblest daughter,
Alma Mater, B.H.S.

IN MEMORIAM

It's as though I stand on a hill up high
Untouched by reality
Soon with one last grateful sigh
I'll enter eternity.

I hope I made many friends in my life,
I hope I did some good;
I hope God is pleased with my life here on earth—
I tried to serve him the best I could.

The door of life is shutting now,
My love, my happiness I remember
As my life takes its final bow
And dwindles to a dying ember.

At last I enter eternity
To serve God forever more
I'll give Him my heart—His will be done—
Behind me is closed life's golden door.

CLASS SONG OF 57

Class Song - 1957

(♩ = 144)

The promise of a golden tomorrow
Beckons us on
For the Class of '57
A new day will dawn.
And as we stand and reminisce
We think of all that we shall miss
Of things we've done
And fun we've had
We feel a little sad.

You have taught us all that we know,
Gave us fun and laughs.
The time has come to separate
So we travel different paths.
But as we heed the beck'ning call
We'll ne'er forget the days gone by
Old B. H. S. we'll always love you
It's been wonderful—thank you—goodbye.

Tomorrow will be what we make it.

FAREWELL B. H. S. AND OUR YOUTHFUL YEARS

Our class of 1957

Stands ready to face the future now—
We have in our hands the key to the world—
Our childhood has taken its final bow,

The friends we've made we'll never forget;
Our memories we'll cherish forever,
But now we must go our separate ways,
For we cannot always be together.

We'll miss you dear old B. H. S.—
Your strong, protective walls;
A twinge of sadness finds each heart
As we walk, for the last, through these sacred halls.

We've learned much more than just facts from books—
We've learned how to get along with each other,
To be good citizens, to be friendly and honest,
And to treat each man as our brother.

You've guided us all through three years—
We're proud, Alma Mater, of you,
And in the years that lie ahead
We'll try to make you proud of us too.

So Farewell, B. H. S., our Teachers, our Friends—
Farewell our youthful years.
A salute to you loving Alma Mater
And three proud and earnest cheers.

FACULTY

GUIDANCE

F. LEWIS LONG
Guidance Director

Guidance is the pupils' service. This department, only in its fourth full year, is under the capable supervision of Mr. F. Lewis Long. The almost innumerable fields and activities it covers are of utmost importance to the pupils of this high school. Its prime objective is to place students in courses and schools that will best aid them in their chosen vocations and professions.

The Future Nurses of America and the various assemblies during the year, the Career Day every other year as well as private advice, constitute some of the services rendered by this department.

LIBRARY

The senior high school library contains over 5,000 books covering all subjects in the high school curriculum. The books are chosen to meet the needs of tenth, eleventh, and twelfth grades. About two-thirds of the books are non-fiction. These furnish supplementary material for the many subjects taught. One third of the books are fiction, most of these being used in English literature classes. Library science, taught in the sophomore year, instructs the student in the proper use of the facilities.

MARJORIE O. TEARPOCK
Librarian

"Silence, please!" A soph English class learns proper use of the library.

"This period was dominated by a movement called Humanism." Judy Wark gives an English literature report.

Remember the garden scene in "The Merchant of Venice?"

"Place this in the front of your notebook, please." Mrs. Russell's senior Commercial English class copies notes.

"The setting was . . ." Mr. McKechnie's sophomore English class listens to an oral book report.

ENGLISH

Remember the three years of English in high school? These years were made up of a study of speaking, writing, grammar, and literature. Our sophomore year we made a study of grammar, literature, and writing. Our Junior English course was entitled "American Literature." In this class we studied the lives of our own American authors and their writings. This year we also studied grammar and spelling.

During our Senior year, we studied the lives of the English authors and their works. This includes poetry, spelling, and grammar. We practiced writing letters, book reports, and giving oral reports of our own experiences.

These three years will be of utmost value throughout the rest of our lives as it taught us to use proper English speech and to express ourselves clearly in any situation.

MATHEMATICS

EDNA S. HARTER

ROGER O. DAVIS
Mathematics

We have an opportunity to take three types of math during our senior high school career. We could take algebra, plane geometry, trigonometry, and solid geometry. This type of math prepared us for our future years in college. Students taking the vocational industrial course were required to take vocational mathematics. This helped them to learn the application of math in industry. A general math course was also available to anyone interested. This was an advance study of addition, subtraction, multiplication, and division.

"The cosine is equal to..." Miss Harter's class is learning trig functions. (Trig wasn't always this happy!)

DRAWING

Drawing covers many interesting phases some of which include commercial drawing, commercial art, restoration of antiques and the painting of murals.

Mr. Zimmerman also gives his students an opportunity for training in drafting, which has an increased demand in industry.

The students of this class also enter in many varied school and community projects such as the very popular Christmas Boulevard.

"Some fun!" Mr. Zim's class is getting their part of "The Christmas Boulevard" ready for Santa's visit.

ART

Art classes were strictly elective, except costume designing which was a required part of the home economic course. Besides uncovering natural talent, art teaches practical application of good taste in clothing and interior decoration. Art is all about us, in every walk of life. The secret is to learn to appreciate it. Miss Arlene Hetler ably instills this idea in her pupils.

The Speech Correction Department deals with the voice problems and the speech problems of those students who are trying to correct and to improve their specific oral communications. The student faces such objects as: procedures to be mastered, materials to practice, objective, cautions to be observed, and tests to take in the realm of voice quality, tone pitch, time, loudness, complex attributes such as faulty emphasis, regional dialect, foreign speech, and affection.

"Now start hah . . . hah . . . hah . . . hard" Miss Richards works with John McCollough to increase his breath span gradually. By using breath, he can control the nerves and muscles to avoid waste and strain.

"Sonrier, porfavor..." The cast of "LA CORBATA ROJA" take time out for their picture to be snapped.

LANGUAGES

Foreign languages give the students an appreciation of the customs and traditions of other lands. The variety of languages include Latin, in charge of Miss Mildred Moody, while French and Spanish are under the supervision of Miss Clarissa Hidlay. These Languages are not only beneficial to the individual but help to create a background and knowledge of other countries so necessary in the age in which we live.

"Parle vous francais?" The play, "ADIEU PERE FOUETTARD" was done entirely in French.

VOCATIONAL AGRICULTURE

CARL M. DAVIS

The Vocational Agricultural course is not only to prepare them more readily and intelligently for the vocation of farming, but also to prepare the boys for better citizenship.

In this course, much of the instruction is given on the home farms of the boys who are to be our future farmers. The program and enrollment of this course is steadily increasing. Each student is also required to work out a home project.

YEARBOOK

Our yearbook staff is seen here putting our yearbook together. First, we see the editor, Miss Julie Harrison, as she ponders over layouts. Next, we see Linda Taylor, artist; Iris Masonotti, photographic editor; and Bob Leitzel, photographer, checking a negative for the basketball page. In the next picture Barbara Wainwright, copy editor, is giving out assignments to her writers; Janice Hutchings, Olivia Greenaway, Judy Wark, Judy Ebner, and Sandra Biber.

Now the typists have the material and they get to work. They are Marlene Hess, Pauline Makar, Rose Salem, Mary Marshall, and Joyce Hurrey.

Finally the last pages are checked by the editors and their advisor, Mrs. Ralph Brosious, before being sent to the publishers. (P.S. We hope you like it as well as we liked putting it together.)
